

Report Date: 21 Nov 2014

**Summary Report for Individual Task
091-94R-1719**

**Repair GPS AN/ASN 128 (*)
Status: Approved**

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD7 - This product/publication has been reviewed by the product developers in coordination with the FT.LEE/CASCOM foreign disclosure authority. This product is NOT releasable to students from foreign countries.

Condition: You are in an operational environment (OE), with a non-mission capable GPS AN/ASN 128 (*) that has been submitted to your Shop with DA Form 2407, Maintenance Request and DA Form 2404, Equipment Inspection and Maintenance Worksheet. Your supervisor has assigned the work order to you for repair. At your workstation you have the following items: DGNS Break Out Box; Tool Kit TK-101/G; RTA/SDC Test Console; Antenna Test Standand Card Extractor (CDU); TM 11-5841-305-23&P; DA Form 2404; DA Form 2407, local SOP and DA Pam 738-751, Functional Users Manual for the Army Maintenance Management System Aviation. NOTE: Substitutions for equipment may be made per test equipment modernization (TEMOD) publications. Some iterations of this task should be performed in MOPP 4.

Standard: Restore GPS AN/ASN 128 (*) to mission capable condition using TM 11-5841-305-23&P. Complete without error DA Forms 2407 per DA Pam 738-751.

Special Condition: None

Safety Risk: Low

MOPP 4: Sometimes

Task Statements

Cue: Your supervisor has directed you to repair a non-mission capable AN/ASN 128 (*) that was submitted to the Shop and complete without error DA Form 2407, Maintenance Request using DA Pam 738-751.

<div>DANGER</div>

None

<div>WARNING</div>

Radio frequency electromagnetic radiation can cause fatal burns. It can literally cook internal organs and flesh. If you feel the slightest warming effect while near the equipment. Do not stand in the direct path of the antenna when the power is on. Do not work on the antenna while the power is on.

<div>CAUTION</div>

MAKE CERTAIN EQUIPMENT IS POWERED DOWN. TOUCH GROUND PRIOR TO REMOVING ESD ITEMS.

Remarks: None

Notes: None

Performance Steps

1. Obtain all required tools, test equipment and reference materials.
2. Complete appropriate blocks on DA Form 2407 per DA Pam 738-751.
3. Perform visual inspection.
4. Set up test equipment per TM 11-5841-305-23&P.
5. Verify faults listed on DA Form 2407 using appropriate troubleshooting chart in TM 11-5841-305-23&P.
6. Perform troubleshooting procedures on the AN/ASN 128 (*) using the troubleshooting chart in TM 11-5841-305-23&P.
7. Identify defective part (s) per TM 11-5841-305-23&P.
8. Replace defective part (s) per TM 11-5841-305-23&P.
9. Perform operational checks per TM 11-5841-305-23&P.
10. Complete appropriate blocks on DA Form 2407 per DA Pam 738-751.
11. Tag defective part (s) for turn in per DA PAM 738-751.
12. Notify supervisor upon completion of task.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier GO if all performance measures are passed. Score the Soldier NO-GO if any performance measure is failed. If the Soldier fails any performance measure, show the Soldier what was done wrong and how to do it correctly.

Evaluation Preparation: Ensure all items required in the condition statement (or appropriate substitutions) are on hand and all safety requirements are met.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Obtained all required tools, test equipment, reference and materials.			
2. Completed appropriate blocks on DA Form 2407 per DA Pam 738-751.			
3. Performed visual inspection.			
4. Properly set up test equipment per TM 11-5844-305-23&P.			
5. Verified faults listed on DA Form 2407 using appropriate troubleshooting chart in TM 11-5844-305-23&P.			
6. Performed troubleshooting procedures on the AN/ANS 128(*)using the troubleshooting chart in TM 11-5844-305-23&P.			
7. Identified defective part (s) per TM 11-5844-305-23&P.			
8. Replaced defective part (s) per TM 11-5844-305-23&P.			
9. Performed operational checks per TM 11-5844-305-23&P.			
10. Completed appropriate blocks on DA Form 2407 per DA Pam 738-751.			
11. Tagged defective part (s) for turn-in per DA PAM 738-751.			
12. Notified supervisor upon completion of task.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. In an operational environment, it is the responsibility of the Soldier and DA Civilians to protect the environment from damage. All operations must conform to the Army Environmental Program, TC 3-34.489 (The Soldier and the Environment), FM 3-100.4 (Environmental Consideration in Military Operations), and local, state, and federal environmental policies, the Clean Air Act (CAA), CAA amendments, National Ambient Air-Quality Standards (NAAQS), as well as Occupational Safety and Health Administration (OSHA), Hazard Communication Standard for Industry, 29 CFR, part 1910.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Incidental to Army operations and activities, all operations must provide for public safety, safe and healthful work places, procedures, and equipment. Observe all safety precautions when using lifting devices and handling heavy parts. Observe all safety and/or environmental precautions regarding electricity, radiation, radio frequency (RF), fuel, lubricants, high pressures, and refrigerants. Provide ventilation for exhaust fumes during equipment operation and use hearing protection when required in accordance with AR 385-10, (The Army Safety Program) the Clean Air Act (CAA), CAA amendments, National Ambient Air-Quality Standards (NAAQS), and the Occupational Safety and Health Administration (OSHA) Hazard Communication standard.
